

ARUNA – Everything from a single source

From engineering to product management up to customer support – the corporate success of ARUNA AG is based on the knowledge and commitment of our employees.

A particular focus of our corporate philosophy is therefore on the promotion of personal and professional competences of our employees. The young, dynamic and motivated team enjoys challenges and responds flexibly to changes or customer requirements. Moreover, we profit from the many years of experience of our production partner S COMBI AG, who also makes the in-house production possible.

Good reasons for ARUNA

- ✔ State-of-the-art production facility
- ✔ Complete in-house production
- ✔ High production integration
- ✔ Optimum quality control with high-quality measuring tools
- ✔ Located centrally in Switzerland

Areas of activity

- ✔ Technical consultation
- ✔ Project management
- ✔ Construction
- ✔ Customer approval FAT, SAT
- ✔ Document management
- ✔ Service management

A history still young

ARUNA AG was founded in December 2020 – a company that is still young, but one that is no longer in its infancy. The experience for development and production of cleaning systems is gathered together by our competent employees.

A small dynamic team with many ideas has made its way to design and produce cGMP-compliant cleaning systems at the best price-performance ratio.

Together with S COMBI AG, a family owned company with more than 20 years of experience in the metalworking industry, we have an ideal partner at our side. The companies can use synergies and thanks to the same location, benefit from short distances. This allows us to quickly respond to adoptions or requests.
